The book elucidates the techniques required to connect with adult learners and provide instruction that is specifically tailored to the unique learning needs of these students. As adult instruction becomes a more common part of library practice, librarians need guidance in an area that may not always have been a part of their library science education. This book provides the instruction necessary to instruct adult patrons.

The book is an essential synthesis of current learning theories all in the words of the theorists themselves. Gert Biesta and Carolyn Jackson. This book brings together world-renowned experts, who each present their understanding of what learning is and how human learning takes place, addressing the social, psychological and emotional contexts of fieldwork, and extended reflections to outline practical applications for the strategies discussed; Suggested readings to supplement the information included in this book; Expanded discussions of professional learning communities and the topic of learning • Transformative learning Psychology and Adult Learning examines the psychological dimension of adult education work by analysing and critiquing key psychological theories that have informed our understanding. It is essential reading for educators, developments in cognitive neuroscience, the impact of social media, and the theoretical move away from 'grand theory'. It examines the formation of identities, and places increased emphasis on how a conception of selfhood lies at the heart of adult learning. Coverage of emerging issues includes the aging society, social justice, and more, with expert insight from leading authorities in the field. Many adult educators begin practice through the context of their own experiences in the field. This book contextualizes these understandings within contemporary and historical frameworks, contemporary and historical contexts, and the guiding principles of adult education today. The discussion also includes select understandings of international adult education, policy, and methods alongside theoretical frameworks, contemporary and historical contexts, and the guiding principles of adult education today. The proposed volume will therefore generate new knowledge to share among faculty, graduate students and other researchers who practice not only in Adult Education, but also in Higher Education.

Minority status in the United States of America does not diminish access to higher education, employment, and subsequently health care. This volume explores factors that have contributed to health disparities among racial, ethnic, and sexual minorities. Factors identified in this book range from disparities in access to health care to disparities in quality of care for various social forces such as racism and heterosexism. This book ensures that educators have the knowledge and skills to deliver quality health care to their diverse student populations. The proposed volume will therefore generate new knowledge to share among faculty, graduate students and other researchers who practice not only in Adult Education, but also in Higher Education.

A concise guide to effective teaching with a focus on the professional education of graduate students and adults. • Faculty and librarians new to teaching will appreciate the concise, practical advice for designing course goals, for effective teaching • All faculty will appreciate your use of authentic design and effective feedback, engaging and supporting students, and managing their workload • The book has a unique focus on teaching graduate students and adults in the LIS field

This is the first New Directions volume related to adult learning since 1973. Now, as then, young adults are an important segment of the adult population but have received scant attention in the adult education literature. Increasingly, young and young adults are enrolling in adult education programs and in doing so are changing the meaning of adulthood. Given the significant demographic, technological, and cultural shifts during the past 30 years, there is an increasing need for practical information and tools to plan programs, policies, and strategies that will meet the needs of young adults, and we believe it is time for an updated discussion among educators and other scholars in this discourse. This volume is designed to engage the discussion related to the educational needs of young adults along with a timely and interdisciplinary discussion that highlights the transitional needs of young adult learners. This is the 142nd volume of the Jossey-Bass series New Directions for Adult and Continuing Education. Noted for its depth of coverage, it explores issues of contemporary theory in adult education, policy, and methods alongside theoretical frameworks, contemporary and historical contexts, and the guiding principles of adult education today. The proposed volume will therefore generate new knowledge to share among faculty, graduate students and other researchers who practice not only in Adult Education, but also in Higher Education.

The new edition of the authoritative book in the field of adult education—fully revised to reflect the latest research and practice implications. For nearly three decades, Learning in Adulthood has been the definitive guide in the field of adult education. Now in its fourth edition, this comprehensive text is fully revised to reflect the latest developments in theory, research, and practice. The authors integrate foundational research and current knowledge to present fresh, original perspectives on teaching and learning adults. Written by experienced instructors and practitioners, this volume is designed to help faculty members teach effectively to diverse groups in a wide range of settings, including colleges and universities, extension programs, businesses, libraries, and museums.

The fourth edition of Psychology and Adult Learning has been thoroughly updated and expanded to include the latest research and theory on adult learning. Written by internationally renowned experts, this volume focuses on core principles of adult learning, contemporary approaches to teaching, and the guiding principles of adult education. Coverage of emerging issues includes the aging society, social justice, and more, with expert insight from leading authorities in the field. Many adult educators begin practice through the context of their own experiences in the field. This book contextualizes these understandings within contemporary and historical frameworks, contemporary and historical contexts, and the guiding principles of adult education today. The discussion also includes select understandings of international adult education, policy, and methods alongside theoretical frameworks, contemporary and historical contexts, and the guiding principles of adult education today. The number of English language students in American schools has dramatically increased in recent years, creating a greater awareness of cross-cultural issues and considerations in education. Globalization as well as an increase in international education and learning opportunities bring about the potential for individual and national advancement. As learners move away from traditional scholarly media and toward technology-based education, students gain an advantage with technology to engage on their respective campuses. It is also a call for recognition that the practice of S-LCE needs to be reexamined and improved. The book further addresses the field's potential contributions to scholarship, such as the scholarship of teaching and learning. Cooperative learning is an educational strategy that enhances the learning process through social interaction and collaboration. In this section of the book, the authors discuss various aspects of nontraditional education and applications within curriculum development and instructional design. Featuring coverage on a broad range of topics such as experiential learning, instructional design, and formative assessment, this book is valuable to educators, administrators, university professors, curriculum developers, and researchers seeking current research on new methodologies in adult education.

Higher Education is a collection of innovative research on the methods and applications of adult education in residential, online, and blended course delivery formats. This book will focus on the impact that culture, globalization, and emerging technologies currently have on adult education. While highlighting topics including andragogical principles, professional development, and artificial intelligence, this book is ideally designed for teachers, program developers, instructional designers, technologists, educational practitioners, deans, researchers, higher education faculty, and students seeking current research on transformative learning and education.
